

The health and well-being of our employees and customers is of utmost importance to us at Rodger's Plumbing. We will remain in operation as we are considered an essential business. Both outside and inside services are still being provided.

Currently, the following policies and precautions are in place:

- If it is an outside service we will leave the invoice in the customer's mailbox
- If it is an inside service, we can either give the customer your invoice directly or leave it in their mailbox (whatever you prefer)
- Employees are wearing gloves and masks for inside services
- Of course, if any employee is sick or showing symptoms they are not doing service calls.

We will update as things change. Our thoughts and prayers are with everyone who is being affected by this global health crisis.

In addition, here are some links to information on COVID-19.
